Editor's corner

I have results for all of May and the first weekend of June in this issue – I apologise if I have left anyone out but I can only go by what people either put on the Wiki, or email to me! If you would like to be added to the Wiki, please contact Ian Hutchinson.

It has been a very successful few weeks for the club, with lots of dogs gaining places and wins and moving up, well done everyone.

Basil did me proud at our first trip to the lovely venue of Catton Hall, winning out of grade 3 (*right*)! Of course the following weekend at Cippenham it looked like neither of us knew how to do agility!

Training on Thursdays has been quiet this month – it was good to see so many people back this week! Deadline for the next issue is the 8th July, so remember to put your results online, and please email me your pictures.

Welcome to Poppy

Those of you who train in the last session on Thursdays will have met Jazz and her enthusiastic spaniel Bailey, who have both been making great progress with their agility training. Jazz and Bailey have also dipped a toe into the world of demos, and hopefully will do more.

Recently Jazz and her family welcomed a new arrival, little Poppy. At the time she was called Piper, and being fostered for Many Tears by Dawn Graham, who took a week off work and had her house invaded by a pack of foster puppies! As you can see below, Bailey seems to love his new friend!

Apparently I forgot....

It has been pointed out that I usually welcome new puppies and new dogs in Watchdog, and apparently I forgot Fig! Oops!

Fig came to live in the Pearce household in February, aged around 3 months (*right*). Kevin has always had collies, and said he might think about something different for his next dog. I don't think either of us realised quite how different!

Fig was bought as a Christmas present for a family with three young children, and they quickly realised that she was just too much for them.

The two main questions people seem to ask are "what is she" (no idea) and then they debate what size Fig might be when she grows up (no idea). She is already taller than Basil, and is doing the puppy thing of growing one end at a time, so her bum is several inches higher than her shoulders a lot of the time.

Fig is now seven months old and has been doing some puppy training. She is quite different in her mindset to the collies – keeping Kevin guessing as to what she might do next! She is very confident and has taken shows in her stride so far, meeting lots of people. She has also started learning to score – thanks Aileen!

I am looking forward to seeing her learning agility!
